## Press release

### For immediate release

30/10/2023

### Working closely with Imitaz Developments, RMJM Dubai designed a contemporary residential tower.

The Luxor Residential Tower is ideally located in the vibrant neighbourhood of Jumeirah Village Circle Dubai. The project offers direct access to JVC Central Park and will include a sky garden, offering views of Dubai Marina skyline and Dubai's Sports City.

The 29-storey facade design is sleek and features elegant silhouettes, with full-height fully glazed windows and overall exhibiting a refined and contemporary aesthetic. Façade materials are carefully selected with rich colors of rose gold and bronze that are used throughout both the exterior and interior creating a harmonious theme in the tower.

Extensive and strategically placed landscaping and open spaces are designed throughout the project, including the sky garden, rooftop pool, zen garden, lower viewing deck and podium. The project also features co-working space, multipurpose hall and a cinema room adjacent to the open spaces.

## Notes to the Editors

### About RMJM

Founded by Sir Robert Matthew and Stirrat Johnson-Marshall in 1956, RMJM Group is one of the largest, most geographically and culturally diverse architecture firms in the world. With studios across five continents, the RMJM family can share knowledge, expertise and design talent, enabling them to think quicker and act faster. Working stronger together, they are global enough to make a difference while still being local enough to be personal. Through their shared vision of success, RMJM has spent more than 67 years creating a legacy of world-class design.
